The programme ran over five days and teachers from various high schools prepared the learners for the final grade 12 exams, providing learning material and revision classes.

The learners were accommodated in hostels, and provided nutritious meals for the duration of their stay.

“This initiative is a continuation of our school support programme, which has been in place for many years. We are passionately invested in ensuring a brighter future for Rustenburg.

These young learners have the potential to be the future leaders of our province and our country, and we hope that this intervention will help them realise their full potential,” Said Mark Munroe, Chief Executive of Impala Rustenburg,

The learners commented that they felt supported in their final-year efforts, being taught by passionate teachers who were invested in going the extra mile to assist them.

They enjoyed the experience and have remained in contact with the various subject teachers for additional assistance.

“I love learning and I enjoyed this experience,” said Tshegofatso Moroane, a matric learner from Charora High School. “I now know and understand much more within the subjects that were covered.

This will assist me in ensuring I get the marks to study Metallurgy.”

## AngloAmerican

**NOTIFICATION: VARIATION APPLICATION FOR MORTIMER SMELTER ATMOSPHERIC EMISSION LICENSE (AEL)**

**NOTICE IS HEREBY GIVEN THAT MORTIMER SMELTER WILL BE APPLYING FOR VARIATION TO THE EXISTING AEL THROUGH BOJANALA DISTRICT MUNICIPALITY (BDM) AS THE LICENSING AUTHORITY**

BACKGROUND: Anglo American Platinum (AAP) Mortimer Smelter is in possession of a valid AEL dated 2 October 2020. The Mortimer Smelter operation is located on the Farm Turfbult 404 KQ, Swartklip and falls within the North West Province. The main objective of the Smelter is to process concentrate received from platinum concentrators, which is smelted to produce furnace matte for despatch and further processing at the Anglo Converting Plant (ACP) situated in Rustenburg. The affected property will include portions of the following:

- Portion of Turfbult 404 KQ

The proposed variation is to make provision for the new SO2 abatement plant. The abatement plant will be utilised to capture existing SO2 emissions produced during the smelting process and convert it to sulphuric acid. This will enable Mortimer Smelter to reduce SO2 emissions in order to meet the Minimum Emission Standards as established by the Department of Forestry, Fisheries and Environment.

The original environmental authorisation for the abatement plant was issued on 12 March 2018, which was also followed by a Section 31 amendment authorisation issued on 7 March 2022. AAP will now be applying to BDM to make provision for the new SO2 abatement plant in the existing AEL.

All interested and affected parties (I&APs) are invited to provide comments, which should be received by 8 October 2022 and addressed to Tshami Nemurangoni as per contact details below.

# JST commemorates National Back Week

RUSTENBURG HERALD - RUSTENBURG - National Back Week is observed every year in relation to World Physiotherapy Day on 8 September.

This year the awareness took place during the week of 5 to 11 September 2022. Job Shimankana Tabane Hospital's Physiotherapy Department aimed to educate community members on how to prevent and take care of their back as this year's theme is aligned to Osteoarthritis. Chief Physiotherapist, Conny Kubu indicated that Rustenburg is a city with a vast population of miners and farmers, which are not the easiest occupations. Due to this, it is possible to hurt and over use the body. This

is also a contributing factor to the high number of Osteoarthritis and back pain patients within the region. "Back pain and Osteoarthritis are a growing concern in the population of today. Both conditions can be prevented. Therefore it is important to try and prevent these conditions," said Kubu. Osteoarthritis is when the tissue where bones end is worn over time and causes discomfort. Spondylosis is osteoarthritis that affects the back. Osteoarthritis can be caused by aging, being a female gender, obesity,

previous joint injuries, overuse, genetics, bone deformities and metabolic diseases. Kubu also mentioned that the symptoms include pain, stiffness, less flexibility and swelling. For treatment, medication can be used, therapy can be beneficial and in certain cases surgery might also be recommended by doctors. Some lifestyle changes such as exercising, losing weight, using assistive devices and braces may be implemented as well. While back pain may be caused by osteoarthritis, it can also be caused by disk problems, muscles and ligament injuries, aging, lack of exercise, obesity, smoking and depression. Back pain can be prevented by exercising, avoiding strain on the back and maintain the right posture. The two conditions overlap concerning causes, prevention and treatment and are usually the two causes for a patient's pain thus their treatment

includes medication, applicable surgeries and physiotherapy. Physiotherapy uses a number of techniques, skills and exercises to treat osteoarthritis and back pain. The treatment includes the use of heat therapy, exercise/stretchers, education on ergonomics and the condition amongst others. We also make use of machinery such as TENS, Interferential Machine and ultrasound. It is also important to note that compliance is crucial in the physiotherapy rehab program. Once a month there is a back pain class and an osteoarthritis class that is presented to some of these patients at the Physiotherapy Department. By spreading awareness, there was also clarification about what Physiotherapists do and how they can help with the rehabilitation of these conditions. For more information, contact the JST Physiotherapy Department on 014 590 5300/01/02.

AVOID THE TERRORIZING TERMITES!

SOIL POISONING - It is important to treat your foundation beneath your building structure for subterranean termites before building your construction. Soil poisoning can be conducted in two ways: Pre- Post construction with a guarantee certificate.

Subterranean termites are controlled in pre construction foundation trenches and under solid floor area. In post construction, they can be treated by drilling the entire outside building wall one metre apart and the solution of termiticides injected according to label direction.

Control of Harvester termites is normally accomplished by establishing where their shallow nest are, and then solution of termiticides is then injected into numerous Nests.

Many South African are blissfully unaware of the destructive results of subterranean termites that can cause millions in damages and result in collapse of structure

MAMA SARAH

Does not ask for any money, she just helped for free. I was surprised to receive R8 million in my bedroom. The same day I gave her a call with tears of joy, she just told me to start using it. I went to the shop to buy some stuff to confirm that it is real money R1000! It was real money. I only gave her 10% in return. Our wedding date is on 31st of December.

Thank you for changing my life

# Rustenburg Herald Kook

Deur Christelle Wessels

Sy mag nou wel die verjaardagsmeisie gewees het, maar Amé van der Westhuizen het moue opgerol om te sorg dat haar gaste met mooi eetgoed bederf word.

Kinderpartytjies is al lankal nie meer 'n bak kaaskrulle, 'n klompie cupcakes en omgekeerde roomshorinkies met 'Smarties' in nie. Deesdae gaan daar byna net soveel beplanning in 'n partytjie vir die kleingoe in soos vir 'n Hollywood 'Blockbuster'! Maar as die verjaardagskoek 'n treffer is, is helfte van die stryd gewonne. Marnus van Dyk dek dié week vir ons 'n kleurvolle partytjietafel vir 'n klein prinses. Só maak Marnus 'n 'Unicorn' koek, Rice Krispies vierkante en Skuimpies.

Kyk na die video om te sien hoe sit Marnus van Dyk en Amé van der Westhuizen die koek aanmekaar.

Amé van der Westhuizen het vir Marnus van Dyk baie mooi gehelp om dié treffer partytjietafel te berei.

## Kom ons hou partytjie!

# Where's our stop signs going?

It's no secret... South Africa of today is not for sissies and this is an understatement! Almost 30 years into our new democracy, this beloved little country of ours is indeed "cowboy country" - a dangerous place! All of us are well aware of the reasons, so let's leave it at that. In Rustenburg however (and no, we're obviously not the only town struggling against crime) we have witnessed a long (not necessary slow) decline of just about everything that is even remotely linked to government or the state-owned entities. It seems that government in its enormity is severely limited in by far the most of its capabilities - whether it is national, provincial or local government at work or at play here. Getting anything up and running, sustaining it or maintaining same has always been a problem. We are sure examples are everywhere...

A new but severely alarming phenomenon in Rustenburg over the past two to four years however, is the systematic disappearance of our road traffic signs such as stop signs throughout our municipal road traffic network. This is the street in front or next to your house from where we drive to work, school, church, or the shopping centre around the corner almost every single day. An investigation by Afriforum's Rustenburg branch assisted by a group of concerned citizens has exposed

an almost inexplicable absence of dozens of road traffic signs - notably stop signs - in and around our neighbourhoods. We have to admit that road traffic signs are often run over by cars as a result of accidents. It would however be outrageous to argue that a frightening number of municipal road traffic signs and in particular stop signs have been lost due to this.

In a letter in Rustenburg Herald's edition of last week (September 9) it was pointed out that cable thieves of late think nothing of it to cut down overhead street light posts along our main routes for the sake of a few meters of copper cable which could be sold to - yes to who? Of course we know.

We can remember very well that a few years ago, the unstoppable theft of manhole covers had the authorities scratching their heads.

It is with little hesitation that we say: This is exactly the same thing - someone is "relieving" our city of its road traffic signs network and is shamelessly putting the lives of our children, pedestrians and all road users at risk in order to buy the whisky. It has been said a zillion times, the operations of some unscrupulous scrap metal dealers need to be investigated and if necessary, regulated. The risk of losing our loved ones in secondary tragedies are not worth it!

# Waar's ons stopstrate heen?

Die Suid-Afrika van vandag is beslis nie vir sissies nie en hierdie is ongetwyfeld 'n onderbektoneering!

Bykans 30 jaar in ons nuwe demokrasie in (om dit nou só te stel?) hoef geen Suid-Afrikaner vertel te word dat hierdie geliefde landjie van ons 'n uiters gevaarlike plek is nie. Almal van ons is sekerlik goed bekend met die redes, so kom ons laat dit daar. In Rustenburg egter (en ons is beslis nie die enigste dorpie wat hiermee sukkel nie) is daar nou al baie jare lank 'n tragiese agteruitgang te bespeur in letterlik alles wat hoegenaamd met die staat of regeringsinstelling te doen het. Daar is skynbaar baie min wat ons land se regeringlui, of dit nou nasionale, provinsiale of plaaslike owerhede is - suksesvol op die been kan kry, volhoubaar kan bedryf, of minstens darem werkend in stand kan hou. Ook hier is dit sekerlik onnodig om voorbeelde te noem.

'n Nuwe maar uiters kommerwekkende tendens in Rustenburg oor die afgelope seker goeie twee tot vier jaar, is die geheimsinnige (maar skynbaar sistemiese) verdwyning van padverkeerstekens oraloor deur ons munisipale padverkeersnetwerk. Dis nou sommer net die strate voor of langs die huise waar ons bly en waarvandaan ons daaglik werk toe, skool toe, kerk toe of winkel toe ry. 'n Ondersoek deur Afriforum en 'n bekommerde groep inwoners het duidelik getoon dat Rustenburg se munisipale area baie vinnig besig is om sy netwerk van

padverkeerstekens te verloor. 'n Mens moet toegee dat padverkeerstekens dikwels deur motors omgery of beskadig word. Dit sou egter verregaande wees om die verdwyning van groot hoeveelhede padverkeerstekens aan motorongelukke toe te skryf.

Rustenburg Herald het verlede week 'n brief gepubliseer waarin die aandag gevestig is op die praktyk van kabeldiewe om straatligte langs ons hoofweë sondermeer af te saag ter wille van die koperkabel wat gesteel kan word.

Hierdie is eenvoudig dieselfde verskynsel. Iemand is besig om ons stopstrate weg te dra en dit is teen hierdie tyd al ou nuus waarheen kabeldiewe, yster- of staaldiewe gaan om hul gesteelde ware te verkansel. (Laasgenoemde is al vir jare 'n probleem in Suid-Afrika en 'n diepgaande ondersoek na die praktyk van skrootyster of staal is dekades al agterweë. Hoeveel mangatdeksels van enige soort of grootte is nie nou al met plastiek of dergliks vervang nie omdat die goed eenvoudig gestroop is).

Die gevaar van die praktyk is ongelukkig dat ons kinders, voetgangers en alle padgebruikers gevaar loop om onskuldige slagoffers te word van 'n sekondêre tragedie weens die afwesigheid van stopstrate.

Die is kommerwekkend dat die Rustenburgse Munisipaliteit skynbaar nie gereelde inspeksies doen en ontbrekende stopstekens as 'n saak van uiterse dringendheid vervang nie.

# Motorskou op die kaarte

Die redakteur,

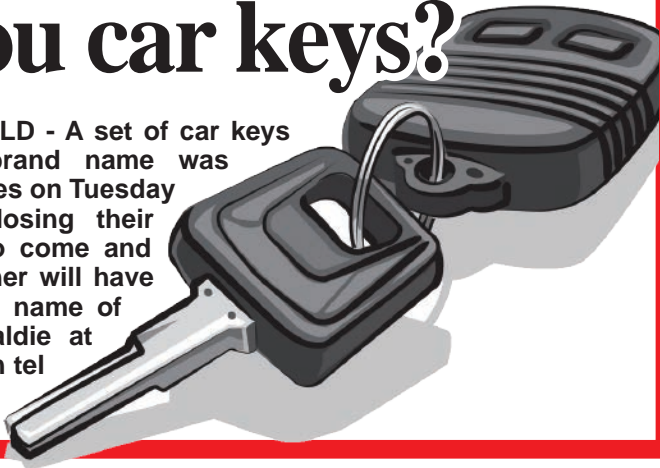

Ek was onlangs by die Steineck 4x4-dag en het my verlustig aan die pragtige motors wat daar uitgestal was, daarom sien ek veral baie uit na die jaarlikse motorskou, wat deur die Goue Oues Motorklub by Laerskool Rustenburg op Saterdag 24 September aangebied word. Hier gaan ons en almal wat sommer net 'n lekker dag in die buitelig wil geniet, die geleentheid kry om die pragtige klassieke motors, "hot rods", "street rods", statiese enjins, motorfietse en vele meer te sien te kry. Daar gaan ook baie wees om te eet en te drink en dit gaan sommer 'n baie lekker Erfenisdag wees om te geniet. Nog belangriker dalk - teen die koste van brandstof deesdae is dit aangenaam om te weet dit is sommer net 'n hanetreetjie van die huis af. Ek sien met groot verwagting uit. Hierdie keer kan ek sommer vir vrouliet ook saamneem.

**Motorskou-liefhebber.**

NW marathon runners and coach miles ahead of competition

Few provinces across the country if not the world would dare to take on the North West Province when it comes to ultra marathons after runners from the Platinum Province (Rustenburg and Mahikeng) have performed brilliantly in the recent Comrades Marathon. By now everyone in the country knows that the North West Province has dominated by clinching all three podium positions in the men's category and produced the first and only South African lady in the women's Top Ten. What not everyone knows however, is that a Rustenburg coach in the person of Dave Adams seems to have access to the "secret recipe" of turning talented athletes into true champions. This year's Comrades Marathon has seen Adams' athletes finishing in 1st, 2nd, 3rd, 5th and 7th as well as the first and only South African woman among the Top Ten finishing in 5th position. Pictured in the photo left shortly after the prize-giving ceremony at this year's Comrades Marathon are coach Dave Adams (centre) with Tete Dijana (1st), Edward Mothibi (defending champ - 2nd), Dan Matshailwe (3rd and 1st novice - far left), Galaletsang Mekgoe next to Dijana, (5th and first and only South African lady among the Top Ten), Johannes Makgetla (5th and 1st veteran) and Joseph Manyedi (7th). Who won't agree that this is an almost unthinkable achievement and that Adams is the envy of marathon coaches around the world? Well done to Dave and his team of champions!

All roads lead to Rustenburg for the SA Cross Country Championships

RUSTENBURG HERALD - RUSTENBURG - "The 2022 ASA National Cross Country Championships will be hosted at Bergsig Akademie/Academy on Saturday 17 September 2022. We invite all Rustenburgers to come support this event as spectators and experience the best cross country athletes in South Africa in action on home soil. The first race of the day starts at 07:30 with the last race at 17:15".

Did you know that North West is a water scarce province?
