Geluk by die ongeluk

Die paramedici van Hartbeespoort Emergency Medical Service (HEMS), was Maandag, 26 Junie op die toneel waar ‘n vragsmotor op die R511 Silkaatsnekpad gerol het. Volgens inligting op die toneel het die vragsmotor se remme vermoedelik onklaar geraak, die pad verlaat, deur ‘n heining gebars en ‘n struktuur langs die pad getref. Die impak van die slag het die vragsmotor laat omslaan en op die dak te lande gekom. Niemand is in die ongeluk beseer nie. (Foto: HEMS)

Dagga plant laboratory discovery leads to arrest of suspect near plot in Mooinooi

BRITS POS – MOOINOOI - Addressing drug related crimes, a Crime Combatting operation on Friday morning, 23 June 2023, by the Rustenburg Crime Intelligence, Phokeng and Hartbeespoortdam K9 Units AND Brits Crime Combating Unit (CCU), resulted in the discovery of a dagga cultivation plant and laboratory at a smallholding near Mooinooi.

IS COLOUR MORE IMPORTANT THAN FOOD?

TLU SA invites South Africans to comment on water licenses

BRITS POS – BRITS - The allocation of water licenses for agriculture based on race will have far-reaching implications for the sustainability of agriculture, and it is now time for all South Africans to express their concerns about this officially.

The Department of Water and Sanitation (DWS) published proposed draft regulations for allocating water licenses in the Government Gazette on 19 May. One of the requirements is that licenses for agriculture and forestry should be granted to entities with between 25% and 75% black ownership.

“The government’s efforts to classify everything and everyone based on racial numbers have always been shortsighted. But to say that colour is more important than food is truly excessive,” says Bennie van Zyl, CEO of TLU SA. “Commercial farmers – which include TLU SA members – provide food for approximately 70% of South Africa. If the regulations are implemented, it will mean that many of these farmers will not qualify for water

licenses. Without water, there is no agriculture; without agriculture, there is no food. It’s as simple as that.”

TLU SA made proposals to the government years ago and repeatedly after that on how to provide emerging farmers with sufficient support to engage in sustainable farming. However, the proposals were rejected. If the recommendations had been implemented, there would have been no need to enact legislation now to enforce racial quotas.

TLU SA is in the process of compiling comments against the proposed changes to water legislation. It must be submitted by 18 July 2023. Meanwhile, using the link <https://www.tlu.co.za/en/water-licenses/> South Africans can submit their own comments on the proposed regulations.

“The members who successfully applied for a search and seizure warrant, found a 36-year-old man upon arrival at the plot, says Brig Sabata Mokgwabone, SAPS North West spokesperson.

“The man allegedly confirmed that he rents the premises and upon conducting a search, the police discovered a dagga cultivation warehouse, consisting of a number of rooms. “Dagga plants at various stages of cultivation and other

products with an estimated street value of R760 000, were confiscated. The team also seized 18 lights, 11 fans, battery, two gas bottles, an air conditioner, chemicals, two machines, a laptop and a cellphone,” concludes Mokgwabone.

The suspect appeared in the Brits Magistrates’ Court on Monday, 26 June 2023. Investigation into the matter by the Directorate for Priority Crime Investigation (DPCI) is underway.

HARTBEESSPOORT

Resident kidnapped and robbed

BRITS POS – HARTBEESSPOORT - A male resident (65) of Melodie went shopping at the local Village Mall in Hartbeespoort on Wednesday, 21 June around 16:00 and on his return to his vehicle in the parking area, was attacked by three men wearing masks, who then covered his face and took his car keys, telling the victim that they will be going on a drive.

At an unknown place they stopped and took the victim into a building, took his three cellphones and bank cards and those pin numbers.

The suspects transferred, what later transpired to be a large amount of money into unknown account and left the victim behind with one suspect to guard him and set off to an ATM to withdraw cash from the other accounts.

On their return, the suspects took the victim to his car, and told him to go home. The victim did not sustain injuries.

“We can confirm that cases of kidnapping and common robbery were opened at Hartbeespoortdam police station, and at this stage the suspects are still at large,” advised Maria Nkabinde, SAPS spokesperson Brits.

Anyone with information about the incident, can contact the Investigating Officer, Detective Sergeant More of Hartbeespoortdam Detectives on 082 416 2715.

Alleged killer gunned down in shoot-out

BRITS POS – BRITS - A police member of SAPS Brits received information of a shooting at Ngwenya River Estate, just outside Brits.

They met up with other SAPS members who were following up on a murder case and alleged that the suspect (31) was hiding at a house in the estate and was spotted through the window.

Members then used forced entry to gain access to the house and ordered the suspect to surrender, but he refused. Two shots were fired and the suspect was hit.

Police then found a 9mm pistol with filed off serial number, 9mm rounds of ammunition, and rounds of ammunition for R1- and R5 rifles and for a smaller calibre firearm.

The suspect succumbed to his injuries at the scene and was certified dead by a paramedic of HEMS (Hartbeespoort Emergency Service).

“We can confirm that cases of inquest, attempted murder, possession of unlicensed firearm and ammunition are registered at Brits police station. The deceased is a wanted suspect of a murder case that is being investigated by the police at Boschkop, Pretoria, which was committed earlier this month,” SAPS Brits spokesperson, Maria Nkabinde says.

CRIME SCENE DO NOT CROSS

Mooinooi murder accused sentenced to life imprisonment for killing his girlfriend

BRITS POS – BRITS - The Brits Regional Court sentenced Nicholas Martin Mogapi (45) on Wednesday, 21 June, to life imprisonment for murder and additional twelve months for malicious damage to property. The latter sentence will run concurrently with the life imprisonment.

Mogapi’s sentence emanated from an incident that occurred in May 2018, when the charred and naked body of a 38-year-old woman was found with her hands tied to a tree in the bushes near Samancor mine, Elandsdrift, Mooinooi. A murder case was opened and it was later discovered that the woman and her boyfriend were reported missing.

Consequent to a thorough investigation, the suspect, then aged 45, was charged with murder. At the time of the incident, the accused had a pending case of malicious damage to property against him for smashing a man’s house windowpane. That was after he accused the man of having a relationship with his girlfriend.

The Provincial Commissioner of North West, Lt Gen Kwena applauded the Investigating Officer, Sgt Caiphus Tabane and all other role players for their excellent collaboration which he said will send a stern warning that those who commit crimes and in the process, violate women and children, will not be spared.

Tops at National Nissan Ignition Awards

BRITS POS – BRITS – After Brits Nissan’s amazing performance last year, they won two top categories in the annual National Nissan Ignition Awards.

In their category (medium dealers) they won Best Nissan Finance Dealer of the Year as well as Best Service Department of the Year.

Indeed, a remarkable achievement, bearing in mind that 117 dealerships from across South Africa were invited to this prestigious ceremony.

Brits Pos spoke to Brits Nissan’s Dealer Principal, Lize Lourens and she said that focus on customer satisfaction is the foundation on which they build this dealership.

“A huge thank you to all our customers, without you these awards would not have been possible,” Lize said. “For their dedication, hard work and positive attitude I would like to salute my entire team.”

Nissan South Africa has recognised its top performing dealers across South Africa and the criteria for Brits Nissan winning these top awards include financial profitability, customer satisfaction and professional service.

For the best service, friendly and professional advice on choosing your next new Nissan or quality used vehicle, for part sales or service dealership at 14 Van Deventer Street, Brits or phone 012 252 3333. At the recent National Nissan Ignition Awards, Brits Nissan won two prestigious awards, Best Nissan Finance Dealer of the Year as well as Best Service Department of the Year - Lize Lourens, Dealer Principal, Anri Viljoen, Sales Manager with Bertus van Oordt, Workshop Manager.

OVERFLOWING RESERVOIR

Problem may be solved?

Thousands of litres of water is wasted because of a faulty pressure reducing valve at the reservoir behind the Gereformeerde Kerk in Johan Street Brits.

BRITSPOS – BRITS – For months on end the water blockage at the entrance to the Gereformeerde Kerk Brits, on the corner of Johan and Potgieter Streets caused major problems for pedestrians as well as church goers.

Thousands of litres of water accumulated at the entrance to the church as a result of the reservoir, behind the church that overflows on a regular basis. The church board reported this matter numerous times to the Madibeng municipality without any response.

Brits Pos contacted the spokesperson at Madibeng Municipality, Tumelo Tshabalala, and he immediately responded.

“The overflowing water from the reservoir is caused by a faulty pressure reducing valve (PRV),” Tshabalala said. “The matter is receiving urgent attention from the Municipality as the contractor will be on site soon with repair works. As far as the blocked storm water drain is concerned, the said infrastructure was assessed on 14 June 2023 and the teams were dispatched starting from the beginning of this week to unblock them. The works will continue throughout the week.”

NW police arrest more than 250 through high density operations

BRITS POS – BRITS – In SAPS’s pursuit for safer communities through execution of various actions, the High-Density Operations that took place between Thursday, 22 and Sunday morning, 25 June 2023, resulted in the arrest of suspects for various crimes.

“A total of 255 suspects were nabbed for offences ranging from murder, assault with intent to do grievous bodily harm (GBH), assault common, driving under the influence of alcohol, illegal dealing in liquor, burglaries at residential and business premises, dealing in drugs and carjacking to possession of counterfeit goods,” says Capt Aafje Botma, SAPS NW spokesperson.

In Hebron in the Bojanala Platinum Sub-District 1, the local Visible Policing jointly with Tracker SA, operationalised intelligence regarding a suspected stolen vehicle on Friday afternoon, 23 June. The said vehicle; a white Nissan NP 300, which was allegedly stolen earlier this month in Rustenburg, was eventually found abandoned at Midway crossing. Investigation into the matter including tracing of the suspect is underway.

In one of the arrests in Vryburg on Thursday morning, 22 June 2023, a man was nabbed at a hair salon at the taxi rank during a crime intelligence driven operation by the Provincial Organised Crime, Vryburg Visible Policing and K9 Unit. That after the team members searched the place and found 65 mandrax tablets. The police

proceeded to the suspect’s place in Vry Street and found more than 100g of crystal meth. The suspect led the police to another address where 38 packets of illegal liquor commonly known as “stomp” and 29 sachets of crystal meth were discovered.

In another operation on the same day at around midday, the team conducted a search of a food outlet at the taxi rank and arrested two suspects after illegal liquor was found. One of the two males took the police to a residence in McKenzie Street where 9 x 25 litres and 24 x 200ml of illegal liquor known as “Alomo” were found.

Both suspects were arrested. All the arrested suspects are appeared in the Vryburg Magistrates’ Court. During the operations, 3 123 persons and 1 318 vehicles were searched. In addition, 13 unlicensed liquor premises were closed and 23 second-hand dealers were inspected. The operation also culminated in the confiscations of a car, liquor, cellphones, 96 rounds of ammunition, counterfeit goods and a variety of drugs.

The Provincial Police Commissioner, Lt Gen Sello Kwenia said that provincial management will continue to redirect resources and intensify the operations in hotspots as part of squeezing the space for criminals.

NW Chamber of Commerce says the province in a dire state

BRITS POS – BRITS - “The North West province is in a dire state and we need urgent intervention by provincial – and national government”, Gideon Ralepeli, chairman of the North West Chamber of Commerce said in a statement over the weekend.

This comes after prominent business people from the North West province met in Matlosana recently to discuss the general state of the province. Unfortunately, the premier, Mr Bushy Maape, could not attend after being hospitalised.

“The general feeling was that if the government does not act decisively more businesses will close and relocate to other provinces and even into Africa. This will be bad for the North West where we already have one of the highest unemployment rates in the country. We are of the opinion that interference by politicians in the running of municipalities is creating most of the problems.

“According to business people the arrogance of some of the municipal officials towards the people paying their salaries, is just not acceptable”, he said. Speaking for the farming community, Benedict Modise from NWK, said that they are spending millions of rand to fix roads so that the farmers and farming community can get their products to silos in the province. “We are doing this ourselves with no help from the provincial government. The costs are escalating each year and have become part of our yearly budget”, he said. Mthokozisi Sibisi, Business Unit Leader of the Auditor General in North West, said that most of the municipalities are bankrupt and need urgent intervention. Prof Ronnie Lotriet from the NWU Business School said that urgent skills audits need to be done and training should then take place. “It is important that the people in the decision-making positions should have the necessary tools to run successful local governments”, he said.

The most relevant problems identified by the meeting were dysfunctional municipalities, illegal foreigners taking over the informal economy, crime, the collapse of the health services, local companies not getting contracts or tenders within the province and a lack of cooperation between business and government at all levels.

The EXCO of the Chamber also met with an advisor of the Deputy President in Potchefstroom on Friday and is hoping to get some results out of that meeting. “We will send a report to the advisor regarding the problems and possible solutions with the undertaking that follow-up meetings will be held soon. If the government is serious about solving the problems, they need to come to the party soon”, the CEO of the Chamber, André Coertzen, said.

The Sibanye-Stillwater PGM athletics team was honoured for their excellent performance at the 2023 Comrades marathon. During a luncheon hosted by SA PGM EVP this past Thursday, the athletes were acclaimed for their commitment and discipline throughout the year.

“You are true ambassadors of the Sibanye-Stillwater brand. Thank you for representing us so well on a world stage,” said Dawie van Aswegen.

BRITS POS – BRITS – Winter is hier en dis veral vroegoggend wat Winter se yskoue mantel oor menige grasperk gestrooi word.

Winter is ‘n tyd van refleksie, nabetragting, hergroepering of sommer net hiberneer. Laat jou siel en liggaam saam met die seisoen rus en hou jou wintertuin lewendig deur ook aandag te gee aan tuinpaadjies, grasperke en rotstuine. Hier is ‘n paar handige winter-wenke: In blomtuine kan struike wat gedurende die winter en lente blom, asook inheemse bome, nou geplant word. Kyk dat jong bome en standaard struike stewig geanker is teen wind.

- Struike wat gedurende die somer blom, kan nou teruggesnoei word, soos die Abelia, Hibiscus, Bougainvillea, Solanum, Vuurdoring en Cotoneaster. Bladwisselende struike soos Weigelia, Viburnum en Prunus moet eers gesnoei word as hulle klaar geblom het in die lente.
- Gebruik blare wat afval vir kompos of plaas as ‘n deklaag oor beddings. Voed plante en struike wat in die winter blom nou met 3:1:5 (stikstof:fosfor:kalium) of organiese bemesting.

Siektes: Kyk uit vir skaal op rose, spuit stam en benat grond met kalkswael.

Wolluis is veral aktief op struike en bome wat bladhoudend is. Behandel dit met ‘n sistemiese insekdoder by die stamme van plante – dit geld ook vir die Italiaanse Sipresluis op konifere. Op kruie/eetbare plante, soos roosmaryn moet die aanbevole dosis en voorskrif streng toegepas word.

Plant nou saailinge van Allysums, viooltjies, Violas, Primulas, Nicotianas, Impatiens, Mimulus en Petunias. Bolle soos Lilium, Amaryllis, Watsonia vir kleur in laat lente. Voed bolle tweeweekliks sodra die blare verskyn. Agapanthus, Clivias en Dietes kan nou nog uitgehaal en verdeel word. Pronkertjies kan nou nog geplant word. Plaas die saad oornag tussen verskillende lae watte natgemaak met loutwarm water, en plant met heelwat kompos. In die groentetuin kan kool,broccoli, blomkool, spinasie, wortels, preie, blaarslaai, ertjies, radyse en rape gesaai word. Sny basielkruid, roosmaryn, tiemie en lourier terug en dit is raadsaam om lokaas vir vrugtevlieë uit te sit. Maak seker die snoeiskêr is gediens vir snoei van wingerde en vrugtebome later vandeemaand.

51 rhino horns robbed from North West Parks Board at Mafikeng HQ

(Image: JacarandaFM)

BRITS POS – BRITS - The DA has learned with dismay of the alleged theft of over 50 rhino horn from the North West Parks Board main vault at Mafikeng Head office.

It is alleged that the robbers managed to evade all the security in place and easily located vault keys which they used to enter the vault.

They then allegedly stole 51 horns. After being called, SAPS allegedly took 8 hours to arrive at the scene, delaying any immediate stop and search operations.

It has been repeatedly stated that there is no pilfering of rhino horn stockpiles and this development has shown that this is certainly no longer the case.

The DA understands that the Hawks are investigating the matter.

According to the information received by the DA, the perpetrators gained access to the North West Parks Board offices where allegedly alarms were disabled, and security cameras in the passage were removed, allowing the thieves to execute their criminal activities unhindered.

Shockingly, it took nearly eight hours for the South African Police Service (SAPS) to arrive at the scene, providing the criminals with ample time to escape.

It is hard to believe that this operation could have been conducted without sophisticated knowledge and involvement of insiders.

The DA has been calling for the urgent and immediate implementation of polygraph testing for parks staff and this is a prime example of a case where this is warranted.

It is now essential that all efforts are made to intercept the stolen horns before it leaves SA shores and catch those responsible.

Of the 51 rhino horns stolen, 14 were large specimens, while the remaining horns were obtained from dehorning operations.

This incident not only represents a significant loss of these magnificent creatures but also highlights the dire need for enhanced security measures to protect our rhino stockpiles.

We strongly urge Minister Barbara Creecy to take immediate action to address this security breach and ensure the safety of our valuable rhino horn stockpiles.

We call upon the Minister to provide transparency on the incident, including a comprehensive account of the steps being taken to recover the stolen horns and bring the perpetrators to justice.

Furthermore, we request that Minister Creecy present a detailed plan outlining enhanced security measures for safeguarding rhino stockpiles across the country.

It is crucial to implement robust security protocols, including advanced alarm systems, increased personnel, and stringent monitoring measures.

Rhinos are iconic and endangered species that play a vital role in maintaining the balance of our ecosystems.

The loss of 51 rhino horns represents a devastating blow to conservation efforts and wildlife preservation as a whole.

We must act swiftly and decisively to prevent such incidents from happening in the future and secure the future of these magnificent creatures.

SARS warns of new scam targeting taxpayers – this is what it looks like

BRITS POS – BRITS - The South Africa Revenue Service (SARS) has warned South Africans to be wary of a new scam targeting taxpayers.

According to the taxman, the new scam doing the rounds comes as an email from criminals posing as authorities from the South African Police Services (SAPS) financial crimes unit.

The email is titled ‘Internal Communication’ from a fake Department of International Relations and Cooperation (DIRCO) email domain.

It asks the email recipient to click on a fraudulent link to verify their identity.

SARS has urged taxpayers not to click on any links and delete the email.

SARS frequently reports on and updates its comprehensive list of over 300 scams trying to exploit the tax authority’s name. The list can be found here.

The latest scam forms part of the exhaustive list of phishing scams targeting vulnerable taxpayers. Under this specific type of scam, members of the public are randomly emailed with false ‘spoofed’ emails made to look as if these emails were sent from SARS but are actually fraudulent.

Their primary goal is to obtain sensitive personal information from a victim for monetary gain.

“These emails contain links to false forms and fake websites made to look like the “real thing”, but intending to fool people into entering personal information such as bank account details which the criminals then extract and use fraudulently,” SARS said.

SARS has further provided the following advice as to what to keep an eye out for:

Do not open or respond to emails from unknown sources.

Beware of emails that ask for personal, tax, banking and eFiling details (login credentials, passwords, pins, credit/debit card information, etc.).

SARS will never request your banking details in any communication that you receive via post, email, or SMS. However, for the purpose of telephonic engagement and authentication purposes, SARS will verify your personal details. Importantly, SARS will not send you any hyperlinks to other websites – even those of banks.

Beware of false SMSs.

SARS does not send *.htm or *.html attachments.

SARS will never ask for your credit card details.

NOTICE OF AN INTEGRATED ENVIRONMENTAL AUTHORISATION & WATER USE LICENCE APPLICATIONS PUBLIC PARTICIPATION PROCESS THARISA MINERALS (PTY) LTD PROPOSED TSF 3 WRD EXTENSION 1 PROJECT DMRE REFERENCE: (NW) 30/5/1/2/3/2/1/358M

APPLICANT: Tharisa Minerals (Pty) Ltd
DMRE REFERENCE NO: (NW) 30/5/1/2/3/2/1/358EM

APPLICANT AND BACKGROUND:
Tharisa Minerals (Pty) Limited (Tharisa) is applying for an Environmental Authorisation (EA) and Waste Management Licence (WML) (Integrated Environmental Authorisation) in terms of the National Environmental Management Act (Act No. 107 of 1998) (NEMA) and the National Environmental Management Waste Act (Act No. 59 of 2008) (NEM:WA). An application for amendment to the current Environmental Management Programme (EMPR) approved by the Department of Mineral Resources and Energy (DMRE) in terms of the Mineral and Petroleum Resources Development Act, 2002 (Act 28 of 2002) (MPRDA) on 16 October 2013 will also be made. The Integrated EA application requires a full Scoping and Environmental Impact Report (S&EIR) to be submitted to the North West DMRE in terms of the MPRDA; listed activities in terms of the Environmental Impact Assessment EIA Regulations Government Notice Regulations (GN R982 of 4 December 2014, as amended) and List of Waste Management Activities (GN 921 of 29 November 2013, as amended). In addition, Tharisa is also applying for a Water Use Licence (WUL) in terms of GN R267 of 4 March 2017 of the National Water Act, 1998 (Act No.36 of 1998) (NWA).

PROJECT LOCATION DESCRIPTION:
Tharisa operates the Tharisa Mine situated within the Rustenburg Local Municipality and Madibeng Local Municipality which form part of the Bojanala Platinum District Municipality in the North-West Province. The proposed TSF 3 WRD Extension 1 site is situated within the Tharisa mining right to the South-East of the Lapologang Community and to the North of the N4 National Road and is situated on various portions of the Farm K/Kraal 342JQ. As part of its ongoing mine planning, Tharisa has identified the need for an additional mine residue stockpile for waste rock, which will consist of a waste rock dump (WRD) extension to Tailings Storage Facility (TSF) 3. The project is thus named the TSF 3 WRD Ext 1. The WRD will be able to store 4.78 Mm3 of waste from the West open pit area. The final height of the WRD will be 68 m and an estimated total footprint of 23 ha. The WRD will have associated toe drainage, access roads and stormwater diversions.

Sun City lives up to its name with installation of solar system

South Africa’s most famous holiday resort, Sun City in the North West Province, has taken its name to heart and installed a R16-million solar plant to reduce electricity consumption from the national grid. Located along the border of the Pilanesberg National Park, with many sunny days throughout the year, the grid-tied solar photovoltaic system rated at 1.4megawatts peak of installed capacity tying in at the Sun Central entertainment centre for use around Sun City. The installed plant will displace an equivalent of 2,367,571kWh per annum, with the highest levels of energy production expected in nine out of the 12 months.

Tussen Hartbeespoort en Rustenburg lê Buffelspoortdam, bekend vir sy water wat groot baars en reuse karp in sy dieptes hou. Die dam is in 1937 as ‘n reservoir gebou en is meer as 130ha groot. Die dam se watervlak is vroeër die week op 100,5% gemeet. (Foto: CarpSA)

Die winter in volle swang

BRITS POS – BRITS – Dis pure winter en geen reën is die afgelope week hier in ons opvangsgebied aangeteken nie.

Volgens die Suid-Afrikaanse Weerdiens is daar ook geen reën vir die komende week op die kaarte nie.

Daar word baie koue weer in die Kaap verwag en dié gure weer kan ook moontlik oor die binneland in beweeg en veroorsaak dat ons hier in Brits ook bietjie kouer gaan kry.

Volgens weerkenners is die gemiddelde maksimum temperatuur ongeveer 18°C en die kwik kan so laag as 3°C daal. Die departement van water en sanitasie in Hartbeespoort het op 26 Junie die volgende statistieke van damvlakke deurgegee:

Hartbeespoort	98,1%	Koster	100%	Klein Maricopoort	87,7%	Pella	72,3%
Buffelspoort	100,5%	Klipvoor	101,3%	Kromellenboog	97,9%	Mokolo	100,2%
Bospoort	102,2%	Swartruggens	101,6%	Molatedi	64,1%	Disaneng	89,2%
Lindleyspoort	98,3%	Roodekopjes	104,4%	Sehujwane	88,0%	Setumo	103%
Roodeplaat	100,5%	Marico-Bosveld	98,6%	Madikwe	59,8%	Lotlamoreng	100%

Troubleshooting your Wi-Fi connection

BRITS POS - BRITS - There is nothing quite like a slow, buffering internet connection to get you frustrated. And for good reason - in our connected world, a stable, reliable and fast internet connection is a work, school and lifestyle essential.

Technology and connectivity have become integrated into every aspect of our lives. We're living in a world where reliable and fast internet connectivity is fundamental to us being able to access and use such technology – think security, CCTV and alarm systems, mobile phones and tablets, computers, banking, music and movie

streaming services, e-commerce, gaming, online learning, online meetings and working from home – the list of applications and number of connected devices is seemingly endless. As we look to futureproof our connected lives, home networks are also getting more sophisticated as fibre internet rolls out to more and more suburbs. It is also one of the reasons why it is important to understand what the difference is between the 'internet' and your wi-fi connection at home, and the impact of the latter on the quality of your overall internet experience.

MetroFibre Networx, an open access fibre network operator (FNO) and Internet Service Provider (ISP) offers a step-by-step guide of all the important things that you need to know, and what the difference is between the internet connectivity versus Wi-Fi connectivity, and how to ensure that connectivity issues don't leave you buffering...

What is Internet Connectivity?
When you purchase monthly internet services for your home, your ISP gives you all the physical equipment you need to connect your devices to the Internet. This includes a physical line such as a fibre optic cable that ends at the Termination Point (TP) / Fibre installation point and will connect your home to the ISP's network. Inside your home, this physical fibre line is connected to an electronic device called an Optical Network Terminal (ONT). In some cases, this ONT also acts as your router, providing your Wi-Fi and physical ethernet/LAN cable connection. However, in most cases, the ONT is connected to a separate router with an ethernet cable. Once the router is installed in your home to provide you with your internet connection, there are two ways that you can connect your device such as a laptop, phone, tablet or TV to the router and internet – either with a physical ethernet/LAN cable from the router to your computer, or over Wi-Fi which is the most popular option.

What is Wi-Fi?
Wi-Fi is used as a term for wireless internet access. Wi-Fi is a localised network of devices that can communicate without the need for physical connections and cables between the devices. Wi-Fi enabled routers are used to broadcast your fibre internet wirelessly within your home and you have the capability to connect directly to your router with a physical ethernet cable.

The quality of this Wi-Fi connection can make or break your internet experience, so ensuring that you have the best Wi-Fi signal strength is important.

MetroFibre Networx offers seven convenient tips to get the best out of your Wi-Fi:

1. How old are your devices connecting to your Wi-Fi? Outdated hardware, especially with computers and mobile devices, is a well-known limiting factor.
2. The age of devices connecting to the router can also be a limiting factor. Also, your router's firmware may need an occasional update – your ISP will be best positioned to help guide you through this process if needed.
3. Your ISP may also update your older router hardware to keep up to date with the latest technologies (and futureproof your connectivity). However, if you don't have the latest equipment, you will not be able to take advantage of these updates until you upgrade your equipment.
4. Restart your router when you change services
Rebooting your router by switching it off and waiting for 30 seconds before turning it on again is often required when you change to a service that has a different speed, or your ISP changes your service speed. Keep an eye out for announcements from your ISP when this happens.
5. Move disruptive appliances away from your

router Appliances such as microwaves, baby monitors, cordless phones and even other routers can broadcast signals which actively congest your Wi-Fi spectrum. If you have any of these appliances positioned nearby your router, try moving them away and see if there's an improvement.

4. Location is key
The positioning of your router inside your home or office can impact your signal strength. For most fibre users your Termination Point (TP) is installed in the most convenient installation location, in some cases before you move in. It can be quite costly to get your TP point moved, so rather consider using a mesh Wi-Fi system to get the Wi-Fi signal throughout your house. Mesh Wi-Fi is a system that eliminates 'dead' zones, providing uninterrupted Wi-Fi throughout your home, enabling your devices in your network to have faster speeds through a wider coverage and a more reliable connection. Unlike Wi-Fi range extenders which broadcast Wi-Fi from a single point, multiple mesh devices can be chained to create a network of devices with minimal drop in Wi-Fi performance. It is not advisable to chain range extenders in such a manor, and usually results in a broken Wi-Fi network. Mesh Wi-Fi systems have multiple access points or nodes, which means a more efficient wireless network that provides a strong signal no matter where you are in your home.

Also, you'll want your most extensively used devices like the TV or computer as close to the router or mesh node as possible. As a point of interest here, the 2.4Ghz frequency can cover a wider area but is more prone to interference from appliances and speed drops, and also operates at a lower speed. 5Ghz, on the other hand, provides better speeds at close range but isn't great at wide-range and suffers from interference from walls. Use 2.4Ghz for wide-range areas of your home and 5Ghz near bandwidth-intensive devices. Remember that the Wi-Fi signal becomes weaker the further it needs to travel, which is called path loss. The construction material used in the building also has an effect - wood and glass have little effect on the Wi-Fi signal, while concrete, brick and metal are more problematic.

5. Consider using wired connections
You will find that video streaming and gaming are data-intensive and may require more bandwidth and lower latency (the time it takes for a signal to reach a server/s), causing other services and devices to lag. As more users connect to the Wi-Fi, you may notice periodic lag depending on the number of Wi-Fi users and their online usage needs. A wired ethernet cable connection is always more consistent than the Wi-Fi signal from the same router. For bandwidth intensive activities like gaming and high-definition streaming, consider using a wired connection instead. Also, by making use of a cable you will be redirecting traffic from the Wi-Fi router and reducing some of the Wi-Fi traffic.

6. When the lights go out
With load shedding in full swing, it is worth noting that it may impact your provider's ability to keep you connected to the web. All MetroFibre POPs are equipped with battery backups meaning that when there is an electrical outage and your ONT/router has power through a medium like a Uninterruptible Power Supply (UPS) then your internet connectivity will remain online. Consider installing a UPS to keep your connectivity active during load shedding.

7. Get in touch with the professionals
If all else fails and you're still experiencing issues with your connectivity - contact your ISP to assist. Technicians are familiar with the challenges so they can help you troubleshoot and find a workable solution.

An adventurous journey for students

BRITS POS – BRITS – Mountain Cambridge Schools’ brave candidates for The President’s Award Bronze and Silver Awards embarked on their adventurous journey over the Youth Day long weekend.

*The President’s Award for Youth Empowerment is the internationally-recognised South African iteration of the Duke of Edinburgh International Award. This prestigious award allows young people to develop skills, improve their own health and wellbeing, serve their communities and exhibit their drive and initiative. Universities, colleges and future employers all respond positively to candidates who can demonstrate the skills and attributes the President’s Award fosters, which is why both Mountain Cambridge School, and CAIE encourage learners to embark on it.

The excursion involved three days of hiking in the Hekpoort area, as well as two nights camping. What with the crisp autumn temperatures, it was an adventure indeed!

Congratulations to the Mountain Cambridge School’s candidates for completing the journey. For many, this was the last component they needed before submitting their portfolios and earning their Bronze or Silver Awards. Others have a few more hours of Community Service, Skills Development or Physical Recreation to gather before they too will earn their Awards.

The students of Mountain Cambridge School who embarked on an adventurous journey as part of the President’s Award for Youth Empowerment spent three days exploring the Hekpoort area and enjoyed the hiking trails in the Magalies mountains.

Gerrie Maritz en Lode Pieterse se duif het die Ope-wedvlug vanaf Glen in Bloemfontein gewen

Die duif van John Conradie het die Jaaroud-wedvlug verlede Saterdag vanaf Glen in Bloemfontein gewen. Saam met Johan is die hokbestuurder Alfred Bhandu.

PSA says SA not ready to implement National Health Insurance (NHI)

BRITS POS – BRITS - The Public Servants Association (PSA), representing more than 235 000 public-sector employees, is concerned that recent media statements regarding the National Health Insurance (NHI) have left citizens, including public servants, with more questions than answers.

The PSA supports any effort to ensure universal access to healthcare and recognises that access to healthcare is a fundamental human right enshrined in the South African Constitution. It is, however, important to emphasize that this should be meaningful access with quality service, adequate medical supplies, clean and fully equipped facilities, adequate staffing with experience and expertise. Without these fundamental aspects in place, the NHI is doomed to be a failure.

The PSA believes that a single healthcare system, such as the NHI, is not the solution for access to meaningful healthcare services. Over years, the country has witnessed a decline in the quality of public services owing to various reasons, including human-capital flight, poor infrastructure maintenance, a lack of accountability, corruption, etc. The question is if the NHI would yield better benefits for public servants and how it would impact on their disposable income as many of them are already subscribers to a variety of medical-aid schemes. The notion that workers could be expected to pay for private medical insurance and the NHI simultaneously, induces anxiety amongst public-sector employees.

The priority of health reform in South Africa must be the rehabilitation of the public-health sector. This can be best be achieved by a competent, non-partisan public-health service, free of corruption and political interference. South Africa’s two-tier healthcare system is not the cause of problems in the sector. The demise of the private-sector system through the introduction of a single purchaser model of the NHI and the imposition of a tax, equivalent to the average medical-aid spend, will also not produce effective management and administration in the public healthcare sector.

The PSA calls for a progressive realisation of the right of access to healthcare within the resource constraints of the state. The proposed mechanism should strive to make healthcare accountable, affordable, and efficient through strengthening what works in the public sector and removing deficiencies. This must be planned and implemented in a responsible, affordable, and sustained manner. The goal to achieve universal access to quality healthcare must not push us into implementing any and every programme without considering efficacy and effectiveness. The PSA calls for full implementation of the Human Resource Strategy to resolve skills shortages in the health sector. There must be a clear human resources plan to ensure training and staffing of facilities. There can be no reform of the public sector if shortages of skilled personnel persist. In addition, the graduate output must be improved on an urgent basis to meet health-sector demands.

The PSA is furthermore concerned about the future of medical-aid schemes and how these will be incorporated into the NHI, else this could be the beginning of the end of medical-aid schemes. The introduction of the NHI may reverse gains achieved for public servants in respect of access to quality healthcare. Despite pledging support for the rehabilitation of the public-health sector, the PSA believes that public-sector employees, like other citizens, must have the right to choose whether to use public or private healthcare. This choice should also not be punished by imposing a tax burden on employees. The PSA reiterates its position towards the reform of access to public healthcare, but not at the expense of public-sector employees. The PSA believes in dialogue to resolve issues and does not want to revert to Courts to address these concerns. The PSA is, however, convinced that there is still much to be done before South Africa will be ready to implement the NHI as a one-tier health-reform system. The PSA thus urges President Cyril Ramaphosa to carefully consider all inputs before forcing a system onto the citizenry with dire consequences for the country.

49 cars burnt to ashes at Toyota 1000 Desert Rally

BRITS POS - BOTSWANA – Last Sunday, 25 June, in an inferno at the 2023 Toyota 1000 Desert Race in the small mining town of Jwaneng, southern Botswana, 49 vehicles, mostly those of spectators were burnt to smithereens.

It is alleged that a possible glowing ember fell from a food vendor’s braai fire, setting the dry veld on fire and it rapidly spread into the adjoining car parking lot and engulfed the cars in flames. Owners rushed to the scene, but many were too late to do anything, as nobody could go near the cars due to the blaze.

Emergency services were called shortly after the fire broke out, but firefighters struggled to contain

the flames due to the sheer number of vehicles that were set alight and the wintry conditions that are conducive to veld fires.

Fortunately, no deaths or injuries have been reported thus far as the incident took place while most owners were enjoying the action-packed racing. (Botswana police are still investigating the cause of the fire.)

Rolbalspelers in ‘n gesellige luim.

BRITS POS – BRITS – Lede van Brits Rolbalkklub het op Jeugdag ‘n baie gesellige en suksesvolle rolbaldag by die klub aangebied.

Die doel van die dag was om fondse in te samel vir die opknapping en instandhouding van die klub se bane.

Terwyl die winterson helder geskyn het, het 72 spelers van klubs in Pretoria, Mooiwooi en Rustenburg, gesellig saam gekuier, heerklik geëet en rolbal van hoogstaande gehalte gespeel.

Brits Rolbalkklub was bevoorreg om Herman Scholtz, ‘n Springbok-rolbalspeler, as gas te kon onthaal. Herman is deel van die Munisipaliteit Rolbalkklub van Pretoria. Herman is gesiggestremd en het vroeër vanjaar aan die Blind Bowls Australia-kampioenskappe deelgeneem. Tydens dié kampioenskappe het hy ‘n goue medalje in sy enkelspel, asook ‘n silwer medalje saam met sy paremaat, May Homer verower. Herman het sy kennis en vaardighede van die spel met belangstellendes gedeel en is ‘n groot inspirasie vir alle geesdriftige rolbalspelers.

Die bestuur van Brits Rolbalkklub, onder leiding van Lappies Labuschagne, maak van die geleentheid gebruik om al die spelers en besoekers hartlik vir hul teenwoordigheid te bedank. “Graag wil ons ook ‘n spesiale woord van dank aan al ons borge gee. Sonder julle betrokkenheid sou die sukses van die dag nie so groot gewees het nie,” sê Labuschagne.

Brits Rolbalkklub se oeffentye is Dinsdae om 09:00 en wedstryde word Donderdae om 09:00 en Saterdag om 14:00 gespeel. Vir navrae oor die klub se doen en late, skakel Marié van Niekerk by 082 496 7216.
